

VOI JANKOWSKI web developer

| Sydney, NSW
| Phone: +61 493 467 511
| Email: voi.jankowski@gmail.com
| LinkedIn: <https://www.linkedin.com/in/voi-jankowski/>
| Portfolio: working on it

Developer who comes complete with an extensive background in real-time problem solving, intensive teamwork and management with a focus on delivering client satisfaction down to the last detail. Frequently sought after by upper management to take the lead on customer requirements and come up with solutions for obstacles that are original and exciting. Earned a certificate at the University of Sydney in coding to solidify my knowledge of front-end and back-end technologies through a dynamic full stack curriculum. Collaborated on a variety of projects, available within my portfolio, including a number of complex applications. Love the challenge of working with a team to generate unique and sparkling results that always exceed client expectations.

TECHNICAL SKILLS

Softwares/Platforms: Bootstrap, Materialize, React, Semantic.

Software Languages: HTML, CSS, JavaScript, Node, SQL.

Tools/Technologies: MongoDB, Git, PWA (Progressive Web Apps), NoSQL

PROJECTS

Marvelites Fan Page | <https://github.com/voi-jankowski/marvel> | <https://voi-jankowski.github.io/marvel/>

- A centralized location for Marvel fans to keep track of the new releases and dig deeper into the comic book origins of Marvel characters.
- Leading the team and creating the UI.
- Materialize, JavaScript, JQuery, CSS, HTML.

Weather Dashboard | <https://github.com/voi-jankowski/weather-dashboard> | <https://voi-jankowski.github.io/weather-dashboard/>

- Smart looking weather dashboard for travelers and tourists to check weather forecasts for any location around the world.
- Creating the entire webpage that utilizes public APIs.
- Bootstrap, JavaScript, JQuery, CSS, HTML.

TechTonic Blog | <https://safe-sea-90944.herokuapp.com>
| <https://github.com/voi-jankowski/tech-blog>

- A sleek and cool tech blog where users can share posts and comment on each other's posts.
- CMS-style blog site that allows developers to publish their blog posts and engage with the community.
- Developed using Node.js, Express, Handlebars, Sequelize, MySQL.

EXPERIENCE

Site Manager, Heathrow Covid-19 Testing Centre, (Sodexo)

Apr 2020 - June 2022

Managing a team of 160 people across the whole Heathrow testing site and ensuring effective and safe operations based on current and ever changing Standards of Practice. Managing day to day running, logistics and upkeep of the site: contacting suppliers, placing orders; monitoring, approving and organizing all due diligence; performing regular audits and inspections on the site; overseeing and conducting staff Health and Safety training.

Head Chef, The Imperial War Museum, London (Sodexo)

Nov 2017 - Mar 2020

Managing, hiring and rostering of staff. Creating menus, planning and overseeing day to day operations, liaising with suppliers. Coordinating and running private, corporate and government events from inception all the way through to delivery that included 2000-guest receptions and 250-guest sit down dinners. Communicating with stakeholders including regular meetings with clients and communication of the kitchen and museum teams.

Sous Chef, The Institute for Contemporary Arts, London (Sodexo)

Oct 2015 - Oct 2017

Supporting the Head Chef and team in planning, organization and communications in a busy events and dining kitchen in Central London.

EDUCATION

- **Coding Boot Camp: University of Sydney**

2023

A 24 week intensive program focused on gaining skills in HTML, CSS, JavaScript, Node, SQL, MongoDB, and React.

- **University of Warsaw, Poland**

1999 – 2006

Masters in linguistics and North American literature
